Skin and leather, structural variation through thickness 201
Skin of mice, mitotic activity 159
Skin tyrosinase, incorporation of carboxyl groups into melanin 434
Soaking, value of protein decomposition products 53
Sodium sulfide, sampling and analysis 328

Sole leather 594
behavior towards water 504
improvement of quality 207
influence of sulfonic group 504
production with RFP process 431
rapid tannage with chestnut extract 54
reducing tanning time 501
waterproofing 57, 276, 336, 376
Sole leather bends, through-put line 502
Sole leather manufacture, new processes 423
Sole leather tanning, dynamic methods 379
Soles, finishing in natural color 503
Soling materials, abrasion influence of hardness and elasticity 332
Solubilized collagen
differential thermal analysis 273

leather 565
Substrates, treatments 565
Sulfamic acid, use in goatskin industries 617
Sulfite cellulose, tanning materials 563
Surfactants, biodegradable 394
Syntans
bonded to collagen 553
Czechoslovak, tanning material L2 613
Synthetic tanning agent 624

TANCOUS, J. J. Biography 45
Tannase, preparation and enzymatic properties 160
Tanned skins, drying 439
Tannery effluent problems 570
Tannery effluents, anaerobic treatment 516

Tannery product, method of examining 560
Tannery waste waters, depollution 103
Tannin
chestnut, fractionated extraction 56
goran 59
Tannin diffusion, influence of methylated melamines 427
Tanning 513, 568
electron microscopical view 58
pH and rH 56
retanning myrobalans-tanned goat skins 59
with aluminum salts complexed with acids 436
Tanning action by aluminum sulfates 376
Tanning agents, organic, enzymatically modifying 107
Tanning extracts, treatment with dispergator 377
Tanning factories, protection against corrosion 332
Tanning of leather, with urea formaldehyde resins 504
Tanning machinery 207
Tanning materials, determination of uptake with labeled molecules 278
Tanning resins, process for preparation 107
Tannins
condensed, redness induced by sunlight or heat 101
vegetable and synthetic, investigations 213
wine 558
Tear Test 328
Tests, tensile and tear, influence of speed of jaws 328
THORSTENSEN, E. B. Photo and Biography 371
Tooth Enamel, human, amino acid composition 434
Treating hides, apparatus 435
Tropocollagen
action of proteolytic enzymes on 279
macromolecule, new model and mode of aggregation 102
monomeric, physical characterization 280
